BIEAP	<i>Physics, Chemistry, & Mathematics</i>	Deepthi Junior College	2024	9.64
SSC	-	Ushodaya High School	2022	9.0

WORK EXPERIENCE

- **Data Analytics Virtual Intern** [Deloitte] July 2025

During the Deloitte Data Analytics Virtual Internship by Forage,. One of the key tasks I completed was designing a comprehensive dashboard using Tableau, where I compared bar charts to visualize and interpret key business metrics. This activity enhanced my ability to derive insights from data, improved my data visualization skills, and helped me better understand how to support decision-making through analytics.

- **Data Visualization Virtual Intern** [TATA] July 2025

During the internship, I worked on a real-world business scenario where I used Tableau to create effective and insightful data visualizations. I analyzed key performance metrics and presented the data through interactive dashboards to highlight patterns, trends, and opportunities for decision-making.

PROJECTS

- **Capstone project** [Frontend] June 2025

Created a personal website that showcases my skills, experiences, and interests which is visually appealing and easy to navigate, while also provided relevant information about me and my background which is built by HTML and CSS.

- **Blog Web Application**[Backend Framework] June 2025

Created a Blog web application using Node.js, Express.js, and EJS which allow users to create and view blog posts with good styling and good looking user experience.

- **Weather App Api** [Server Side Application] July 2025

Built a website using the Express/Node.js platform, with the Axios HTTP client, that retrieve data, and present it in a user-friendly manner.

CERTIFICATIONS

1. Completed Data Analytics Virtual Internship by Deloitte, gaining skills in data cleaning, analysis and interpretation.
2. Finished Data Visualization Virtual Internship by TATA , building interactive dashboards using tableau.
3. Completed Generative AI Introduction Course by Google cloud , learning AI, concepts, models, and real-world-applications.
4. Completed AI for ALL program by Digital india, understanding the basics and social impact of AI
5. Completed Devops and AWS services Course by AWS training and certification -gained hands on knowledge of CI/CD, EC2, S3 and cloud deployment.

EXTRA-CURRICULAR ACHIEVEMENTS/ACTIVITIES

- Secured 75% in JEE MAIN examination 2024
- Secured 23,000 rank in the APEAMCET 2024

TECHNICAL SKILLS

- **Languages:** C, C++, MySQL, PostgreSQL, MongoDB,
- **Tools:** LaTeX, VS Code, GitHub, ,Postman
- **Full stack Development :** HTML, CSS, JS, React.js, Node.js, Express.js
